Re: KKR(V)(FM), Wenatchee, Washington  
Facility Identification Number: 28635  
MCC Radio, LLC  
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed August 10, 2007, on behalf of MCC Radio, LLC ("MCC"). MCC requests extension of the special temporary authority ("STA") granted on February 27, 2007, to operate Station KKR(V) with emergency antenna facilities pursuant to Section 73.1680.<sup>1</sup> In support of the request, MCC states that it is in the process of building a replacement tower.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made substantial progress toward restoring licensed operation. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KKR(V) may continue to operate with the following facilities:

---

<sup>1</sup> KKR(V) is licensed for operation on Channel 284C2 (104.7 MHz) with effective radiated power of 6.5 kilowatts (H&V) and antenna height above average terrain of 403 meters.

Geographic coordinates:	47° 28' 44" N, 120° 12' 49" W (NAD 1927)
Channel	284 (104.7 MHz)
Effective radiated power:	1.8 kilowatts (H&V)
Antenna height:	
above ground:	15 meters
above mean sea level:	1065 meters
Above average terrain:	403 meters

MCC must notify the Commission when licensed operation is restored. MCC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **July 17, 2008**.

Sincerely,

Charles N. Miller, Engineer
